

EveriWare -Business Platform

The Internet – Business Everywhere

More than just a Web presence, **EveriWare** offers an essential resource for the agile business to make the Internet serve the backbone of its business, with everything needed for ever-present business activities using dependable, inter-connected productivity tools with safe and secure, off-site servers and data storage.

Secure access to individual and collective data from anywhere, any time and any device

- Remote working from other offices, client sites or home.
- Access to your applications 24 hours a day, 7 days a week, 365 days a year.
- Mobile and flexible access out in the field and on the move.
- Acquire on-demand and ubiquitous access from any location with minimal hardware.

Improve team performance with effective collaboration tools and software

- Groupware services; Web Mail, and Calendar/Diary activities.
- Project management, task scheduling and shared workspaces.
- Multi-site Accounting Systems.
- Discussion fora, instant messaging, voice communications and conferencing.

Deploy a simple, cost-effective solution, without a large cash outlay

- No capital investment.
- A simple subscription with no per-user license fee.
- Uses existing web browsers, so there is no software to install on desktop PCs. This gives a new lease of life to older PCs.
- Applications are configured and managed from one centralized location, reducing the cost of supporting offices individually .
- The server is maintained off site, so there is no equipment to install, no extra space to be found, no heat, noise or security problems.
- All upgrades are included, there no need to continually re-purchase software you already have.

Keep your business up and running, able to work even when disaster or disruptions strike.

- Free up valuable in-house IT resources and reduce dependence on hardware.
- Alternative to office based applications.

Protect information in a secure off-site repository for critical data

- Automated backup and recovery facilities in a centrally managed and protected environment.
- Integrated disaster recovery.

Improve business continuity with a platform that can change as your business changes

- Scalable cost effective solutions to fit any size of organization, driven by business needs.
- On-demand access to technical expertise.
