

EveriWare - Web Based Solutions

The current practice of obtaining Internet access, domain name registration, web site design, development, hosting and support from different providers is simply not an easy or cost-effective way of establishing a presence on the Internet. What is needed is a simple approach which will deliver the right mix of features, support and hosting to achieve the required results.

EveriWare provides a complete, managed solution, with everything needed for a web site. There are options to suit every organization's needs, from simple sites of a few pages, to fully fledged web based applications. Open Source software and a tailored hosting package, enable us to deploy cost effective, user-friendly, systems on the Internet or a company Intranet. **EveriWare** means that all organizations can benefit from the advantages of having a website.

EveriWare makes it as simple as ABC:

EveriWare Announcement

This is suitable for organizations which primarily need a presence on the Internet as a marketing, information or contact medium. Our designs give a professional look and an easily navigable structure to new websites. All **EveriWare** sites are equipped with a range of interactive options as standard. Many of these facilities can even be added to existing, static sites. All are maintained through a simple user friendly web-based interface. Such features include:

- Easily updated news lists and events calendars.
- Third party information feeds.
- Customizable pages for campaigns, announcements, contact details, etc.

EveriWare Business

Many sites start with simple information distribution, but in time other uses, which require more interaction with the user, become appealing. It might be necessary to restrict access to the information to known subscribers, or to enable feedback by adding a simple e-mail reply forms. These requirements culminate in fully fledged e-commerce enabled on-line shopping systems, which give the opportunity to market the company and sell its products 24 hours a day. **EveriWare** supplies a full range of business facilities, such as:

- User login and restricted subscriber-only areas.
- Full e-commerce systems, with facilities for secure credit card payments.
- Time sheet and expenses recording.
- Accounting and ERP systems.

EveriWare Collaboration

Many circumstances require users at different sites, or remote users on the move, to be able to access a central system. **EveriWare** provides a flexible and secure solution. Such applications have a wide range of uses including:

- Groupware (shared calendars, to-do lists, etc.)
- Project management workspaces.
- Document management systems.
- Discussion Forum, Knowledge Base and FAQ systems.
- Software development, change control and archives.
